Thinking into the future, what do you think the most important role for the library will be?

What changes do you see happening in the way the library collections are being used?

What changes do you see in the way the library building is being used?

What changes do you see in how the public is participating in programming?
What do you think the library can do to better serve patrons?  

Is there anything we do now that you think we should reduce or stop doing?
